PROFILE

Frontend Developer with expertise in React.js, JavaScript, and UI development. Completed 4 months of training at Netmax Technologies, gaining hands-on experience in building scalable web applications. efficient code and solving complex frontend challenges to enhance user experience.

WORK EXPERIENCE

Frontend Developer | Smart Info Care Solution | Duration: 3 Months

- Developed and maintained React.js applications, implementing key features such as product grids, search functionality, and dashboards.
- Integrated REST APIs to fetch and display dynamic data, ensuring smooth user interactions.
- Worked with state management techniques, including React Hooks and started learning Redux.
- Contributed to UI development, focusing on responsiveness and performance optimization.
- Collaborated with backend teams to ensure seamless data flow and application functionality.

Netmax Technologies, Sector 34 | Duration: 4 Months

- Developed responsive web applications using HTML, CSS, Bootstrap, JavaScript, and React.js
- Built and optimized React.js components for better performance and reusability
- Worked on API integration to fetch and display dynamic data
- Gained experience in debugging and troubleshooting frontend issues
- Collaborated with mentors and peers to enhance coding best practices

PROJECTS

- **Ecommerce**
- **Tech Stack: React.js, Redux Toolkit, Axios, Redux Persist, Tailwind CSS,.env React Router**
- **Developed an eCommerce platform with dynamic product fetching and state management.**
- **Integrated REST APIs for fetching and updating data efficiently.**
- **Implemented Redux Toolkit for optimized global state management and Redux Persist for data persistence.**
- **Designed a responsive UI using Tailwind CSS for a seamless user experience.**
- **Enhanced routing with React Router for a smooth navigation experience.**

- **Openroster**

Tech Stack: React.js, Redux Toolkit, Axios, Tailwind CSS, React Router,
- **Developed and managed API calls, including live API calls, for real-time data fetching.**
- **Implemented authentication flows with registration & login APIs.**
- **Configured Redux Toolkit for efficient state management.**
- **Set up an Axios interceptor instance for handling API requests globally.**
- **Utilized environment variables (.env) for managing API keys securely.**
